

ANSUR II

The Warfighter Payoff

- **Valid anthropometric criteria** for requirements documents and cost savings, efficient design, sizing, and tariffing of clothing & individual equipment (CIE) and aircraft/ground vehicle crewstations and passenger compartments
- **Reduced risk** of human factors failures in fast track acquisitions and multi-component ensembles
- **Improved operational readiness** by integrating Active Duty, National Guard and Reserve requirements throughout the materiel life cycle
- **New 3D capabilities** to integrate shape data in the design of body armor and close fitting protective equipment
- **A foundational resource for Warfighter Outcomes (WFO):** Human Dimension; FOC-03-01 Mobility; FOC-07-01 Protect Personnel; FOC-09-08 Soldier Support; FOC-11-01 Human Dimension for the Soldier; FOC-11-02 Man-Machine Interface
